

## NEW TOPIC ENTRY POINTS

### YEAR 5

Year 5 had an excellent visit to the Science Museum on Wednesday as part of their "Mission to Mars" entry point. The children explored the space galleries and watched "Hidden Universe" at the IMAX cinema. Their behaviour throughout the visit was exemplary; the school received an email from a member of the public, praising them, before they had even returned to school!

### YEAR 4

Year 4 started their Summer Term topic of Community by visiting KidZania in Westfield, White City. The children had an opportunity to experience first hand the different roles within a community and took on jobs such as: police officer, smoothie maker, midwife, firefighter and catwalk model! A lot of cooperation and learning took place. Even more than that, purposeful fun was had!

### YEAR 3

Year 3 children flew around the world on Wednesday morning, visiting the countries they will be learning about this term and experiencing some of the culture of each country. They had a fantastic time and cannot wait to learn more.

### A NEW LOOK FOR SUMMER!

Our Value Bears have had a makeover! Each bear was re-designed and re-dressed by a different year group, team of TAs or team of teachers. I am sure you'll agree they are looking rather good in their new costumes.

Each bear has been dressed in clothes that relate to the value they represent, e.g. Miss Respect has a recycled outfit to represent respecting the planet, Mr Fairness is a football referee, Miss Honesty is a high court judge, Mr Caring is a doctor, Mr Resilience is a university graduate and Miss Cooperation is an Olympic athlete.

Please try to reinforce our values and discuss them with your child.
