

## DOME DAY CHALLENGE AT ST MONICA'S SCHOOL

On Tuesday four pupils and Mrs Sparwell took part in the Dome challenge along with another 14 schools in our ELC partnership. Pupils worked together to erect the constructions using their co-operation, and thinking skills.

'A group of children from St. Michaels at Bowes school went to Capel manor to use their co-operation, social and confidence skills in science. We used these values by working together to build a dome made of pipes, zip locks and circular connectors. We didn't succeed but tried, in the end we failed but we are still very happy that we tried our best to build it and co-operate with other schools'.
