

Identification

Child displays symptoms: **Persistent** cough High temperature/fever Loss of taste or smell

Isolation

Child remains in designated room until parent is able to collect. Parent is informed that child must go for testing and proof will be required

Staff/ child sent for testing. The remainder of bubble continue to attend school until the test result is returned *

Test returns negative

Child/ adult returns to school

Child /staff to isolate for 7 days

Family members for 14 days

Test returns positive

POSITIVE RESULT

Child's '**Family**' leader is informed

Family to remain in their space within the school
All parents contacted and informed there has been a positive result in their 'family' and they must collect their child immediately and their child must isolate for fourteen days. The remainder of the family do not need to isolate unless symptoms are shown.

School to liaise with Public Health and follow guidance from the NHS and Test and Trace.

*DfE guidance: Implementing protective measures in education. The remainder of the family stay in school unless a positive result is returned.

RETURN

After fourteen days from the first symptoms, children and staff from the family can return to school.
