What school work are you most enjoying doing at home?

Huge variety of subjects. Largest number of votes were for maths but subjects included English, topic, art, science, computing and French

What school work are you least enjoying doing?

English and RE were by far the subjects children did not enjoy doing. Where they did not like art it was because they weren't very good at it or didn't like researching artists. Several children said there wasn't anything they disliked.

What would you like to do more of?

Maths, science (especially practical activities), art, French

If you have any further comments about how you are feeling or if we can support you in any way then please write them here.

- It is hard learning without my teacher
- I miss my friends
- I'm scared about returning to school
- I'm concerned about how the school will look when I return
- I feel unready to return to school
- I'm doing fine
- I'm enjoying time with my family
- I have a lot of concerns about not getting the work done and concerns about returning to school
- It's sometimes hard to understand the work
- I am enjoying the work that is being sent
- I want to go back to school so I can be more ready for Year 6
- The school playground looks uninviting, like a crime scene. I hope it won't look like that when we return.

My initial thoughts:

- Time to talk, play games and work on collaborative projects vital in the first few weeks to help children to reconnect and not feel lonely
- If lockdown happens again, life lessons or face to face sessions will be very important so we need to know how to do this.
- Making the school and classrooms look inviting, despite needing to distance etc. is v important (final day of the term and INSET days)
- How do we make RE a more exciting/interesting subject for pupils?
- Reinforces our idea that Reading and writing will be subjects to focus on in school
- Children will need reassurance that the work they didn't do at home isn't a problem to their progress and attainment and that we will help them to catch up
- Possibility of facilitating 1-1 meeting with pupils to discuss their successes and worries/targets as we are planning on doing with parents
- We need to write a letter specifically to the children, all about returning to school, addressing some of the things we think will be fears– maybe we could quote some of the Year 6s who were nervous at the start but settled quickly and well. I am happy to write this.
